## Management Discussion

◦ July net revenue favorable \$6k to Rfc and down (\$834k) to PY. Versus PY unfavorable variances in India (\$821k), APAC less India (\$496k) and EMEZ (\$404k) partially offset by favorable variances in NA \$775k and LAG \$111k.

◦ Margins favorable \$3k to Rfc due to the absorption rate, unfavorable (\$226k) to PY due to unfavorable volume.

◦ OPEX higher to Rfc due to agent commissions (shipment not scheduled at time of Rfc) \$55k, NetSuite consulting \$44k, Value Selling \$21k (timing v Rfc), Wise Strategies \$25k, legal fees related to new logo \$21k, payroll & Benefits \$40k

◦ Adjusted EBITDA unfavorable (\$68k) to Rfc and (\$153k) to PY

## Management Discussion

- July net revenue Up \$282k to Rfc and up \$758k to PY. Versus Rfc: Single Family up \$240k, Hollow Metal up \$67k, Online up \$14k, Bravura up \$18k, partially offset by Multi-Family down (\$84k). In addition revenue reductions were favorable \$27k. Versus PY: Single Family up \$440k, Hollow Metal up \$256k, Online up \$94k, Bravura up \$26k, partially offset by Multi-Family down (\$80k). In addition, revenue reductions were favorable \$22k.
- Margins favorable to Rfc driven by lower revenue reductions.
- OPEX approx. flat to Rfc
- Adjusted EBITDA up \$131k to Rfc and up \$314k to PY.

- ➔ Appendix

## Summary review

### Good News / Positives to Business and Plan

- **July net revenue up \$758K to PY. Adjusted EBITDA up \$314K to PY.**
- **Single Family** surged amid supply chain issues for our competitors – up \$440K to PY. This is not sustainable as our inventory of high demand items has been depleted.
- **Callan Factory** allowed (1) additional container for August and (3) for September with no surcharge.
- **Hollow Metal** quoting is active with high conversion rates - \$1.4M awarded in July.

### Risks / Challenges to the Business and Plan

- Supply Chain Issues/Backorders
  - July month-end inventory was down \$3M vs. PY.
  - The Philippines has experienced a surge in covid cases which has led to mandatory quarantines to some regions. As of today our factory is still operational, however the port in Manila will likely be affected.
  - Dealers and SF Builders are anticipating slow-downs due to shortages of OSB, Plywood, Lumber, and Labor.

### Market outlook and expectations

- Multi-Family sales were down in July due to inventory shortages, which will continue in August and September. Hollow Metal remains strong, which means projects are being started.
- Single Family Builders are scrambling to secure products and report demand is still strong. Competitor lead times have extended to 8-10 weeks, presenting some opportunity but inventory concerns will limit our ability to fully take advantage.
- Online continues to do well, but sales are leveling off due to increased in-store shopping. We are continuously expanding our catalog offering to eCommerce partners to increase market share.

### Focus and priorities

- Supply Chain: managing factory lead times, communicating to sales teams, managing customer expectations, offering substitutions where possible.
- MF Smartlock: Andrew is working on a Business Plan, opportunity still looks strong, need to hire Product & Market Manager or MF Smartlock Specialist
- Bravura: new catalog is nearly completed, new website to be approved
- Strategic Growth Initiatives: driving growth through National Account programs, increased Builder focus as competitors experience shortages. Participating in Drees Homes RFP - \$5M opportunity over 4 years.
- NetSuite Implementation: reviewing GAPs, SFH Integration may be a bigger project than anticipated – waiting for pricing for integration.

### Risks

- COVID-19 continues to be a concern as schools reopened and exposure risks increase. Currently no positive cases or quarantines.
- Supply Chain Issues/Backorders
  - We anticipate a reduction in revenue of \$100K - \$200K due to container delays in August and September.

## Inventory BY Item Class

Item Class Description	Jul 2019	Aug 2019	Sep 2019	Oct 2019	Nov 2019	Dec 2019	Jan 2020	Feb 2020	Mar 2020	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020

<b>Grand Total</b>	<b>\$10,798,217</b>	<b>\$10,689,812</b>	<b>\$10,656,360</b>	<b>\$10,585,327</b>	<b>\$10,330,185</b>	<b>\$10,511,684</b>	<b>\$10,604,780</b>	<b>\$10,914,591</b>	<b>\$9,970,304</b>	<b>\$9,481,100</b>	<b>\$9,105,058</b>	<b>\$8,746,012</b>	<b>\$8,091,503</b>	<b>\$7,763,489</b>

- Average Inventory runs \$10.6M

## Factory Lead Times

FACTORY	STANDARD LEAD TIME	CURRENT LEAD TIME
KAMBO	105	135
TONGLUNG SUBIC	105	225
TONGLUNG TAIWAN	105	120
SSS DOOR	90	90
SSS EXIT	100	100
SSS-COMMERCIAL	100	100
METEK	105	105
SUNCASTLE	105	105
PROMIA	105	105
AOPO	105	105
NINGBO	105	105
JINTAN	120	120

- KAMBO represents 37% of our purchases.
- TONG LUNG represents 19% of our purchases.

## Inventory Projection

Month	COGS	Purchases	Ending Inventory
July			\$ 8,084
August	\$ 1,370	\$ 1,018	\$ 7,732
September	\$ 1,428	\$ 1,437	\$ 7,741
October	\$ 1,564	\$ 2,218	\$ 8,395
November	\$ 1,238	\$ 1,726	\$ 8,883
December	\$ 1,420	\$ 1,850	\$ 9,313

- Our traditional brick & mortar accounts were hit hard due to Covid shutdowns and a shift to online purchasing, particularly in the Northeast and Midwest.
- The momentum in MF & SF will be disrupted due to Inventory shortages. Covid has changed many customers approach to pursuing MF projects.

## MF Smartlock Milestones

Milestone	Status	Owner	Date(s)	Status Update
ES1 Electronic Design	●	Tom/BL	1/30-3/27	Complete
ES1 Mechanical Design	●	Tom/TL	1/30-3/27	Complete
ES1 FW Development	●	BuLogics	1/30-3/31	Complete
ES1 Prototype Testing	●	Tom/TL	3/31-5/8	Complete – Several issues discovered, see PCB revision below
Internal Fire Test	●	Tong Long	3/31-4/7	Complete
Packaging Design	●	Tong Long	5/4-7/30	Confirmation pending
PCBA Revision (ES2)	●	Tom/TL	5/11-8/17	ESD protection, short circuit, and card credential issues
FW Revision (ES2)	●	Tom/TL	5/11-8/17	
App Development	●	Stratis IOT	5/13-8/31	NVRAM issue discovered impacting PCBA design and App development
User/Install Manuals	●	TL/Delaney	6/1-8/31	
UL Fire Test	●	S&G/TL	TBD	S&G Compliance Manager working with UL on proposed testing dates
Mfg. Fixtures/JIGS	●	Tong Lung	7/13-8/14	Complete
Product Validation	○	S&G/Delaney	8/17-9/21	
Production/Cycle Testing	○	Tom/TL	8/17-9/21	
ITS G2 Test	○	Tong Long	8/31-10/1	
FCC Certification	○	Tong Lung	10/1-11/16	Start date dependent on PCBA completion
Bluetooth Certification	○	Tong Lung	10/1-11/16	Start date dependent on PCBA completion
Pilot Run	○	Tong Lung	11/16-12/7	
MP Material Prep	○	Tong Lung	12/7-1/11	
Mass Production	○	Tong Lung	1/11	

### PRIMARY GATING ITEM – Functional Units

#### Activity

- Two (2) samples ready for UL testing
- Obtain final pricing from Tong Lung
- Define EOL (end of line) Testing
- Obtain source for mechanical test firmware from Bulogics

#### Status

- S&G Compliance Engineer to arrange UL Testing and confirm whether PCBAs need to be operational
- Tong Lung waiting on final spin for pricing
- End of line testing protocol to be completed

### DESIGN PARTNERS

- BuLogics – Electronic Hardware Design and Firmware Design
- Stratis IoT – Software as a Service (SaaS) Provider (Property Management Application, Installer Application, Mobile Application for residents)
- Tong Lung (Spectrum Brands) – Manufacturing Partner
- Field Theory – RF contractor engaged to finalize the RFID antenna design.

July Total Sales = **\$323,419**

↑ Up 41% vs. 2019  
Exceeded July AOP by 4.5%

July Risks:  
Lower inventory  
in Top 50 Selling  
Items Online –  
Est. lost sales  
between all  
accounts = \$45k

### July Sales by Partner (Ranked in Sales):

- Home Depot \$115,759 – 77% Growth vs. July 2019
- Lowes \$97,160 – 299% Growth vs. July 2019
- Build.com \$53,025 – 25% Growth vs. July 2019
- Wayfair \$46,111 – 33% Growth vs. July 2019
- Amazon \$6,213 – No growth due to no July Prime day

### # of Orders

July 2020 – Total# of orders 5,124 (22 Billing Days)  
versus 2019 - Total# of orders 2,714 (22 Billing Days)  
Average Sales per order - \$ 44.42

### # of Units:

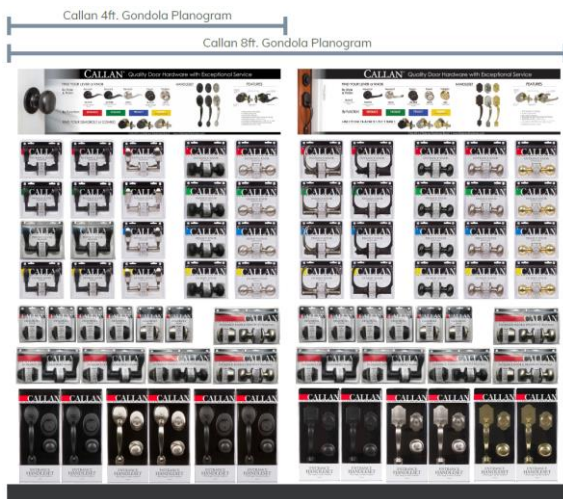

July # of Line Items 2020 = 7,280  
July # of Line Items 2019 = 4,580

## Key Initiatives | Marketing

- Finalizing Bravura Catalog
- Barndoor Pulls Product Launch with dealer & customer communications
- Created lead generation plan & campaign options for review
- Designing planogram program sales tools for sales team (12 total)

**DELANEY®**

**New Round Pull & Flush Mount Combo**

Our new high quality, solid 12in. round handle with 9in. flush mount pull adds a striking look to any sliding door. With only 2 screws needed to install this hardware combo kit, it is a quick and easy upgrade. Features include:

- Resistant to corrosion and rust
- No-routing flush mount on side of door toward wall
- Available in 2 finishes - Powder Coated Black (#BD0804) & Brushed Steel (#BD0801).

For a brochure download [click here](#).

[See More >>](#)

**DELANEY®**

**New Contemporary Square Pocket Locks**

Our new contemporary square pocket locks are timeless and versatile in style with one-of-a-kind features for access and privacy. Each square pocket lock includes an edge pull for easy access and are available in a variety of functions (entry, passage & privacy) and finishes (matte black, satin nickel & chrome). Ideal for any pocket doors in interior halls, bathrooms and closet applications.

For a brochure download [click here](#).

[See More >>](#)

**DELANEY®**

**Additional New Products**

**Tulina Lever with Square Backplate**

Clean, straight lever lines and backplate compliment a variety of interior design styles.

## Good News / Positives to Business and Plan

July sales unfavorable to AOP by \$119k / (6.9%) and \$28k / (1.7%) to Rfc. Down \$30k / (1.8%) to PY. EBITDA up \$20k / 4.9% to AOP and \$13k / 3.3% to Rfc. Up \$26k / 6.6% to PY.

**YTD sales favorable to AOP by \$105k / 0.9% but down \$28k / (0.2%) to Rfc. Up \$711k / 6.5% to PY.**

Gross margins continue to remain strong due to mix and favorable steel costs. No degradation to sell prices to date. Will be more opportunistic and aggressive with price targets in developing territories as new capacity comes online.

**Adjusted YTD EBITDA up \$584k / 22.9% to AOP and \$13k / 0.4% to Rfc. Up \$581k / 22.7% versus PY.**

YTD bookings and backlog remain solid

New customers onboarded in July totaled \$7k (Anderson Metals (MS) & ETAS (TX) – both oem accounts)

## Risks / Challenges to the Business and Plan

### COVID-19

The virus continues to bring dynamic issues and challenges, but supply chains have been minimally impacted to date. All three Atlanta employees have returned from quarantines. No cases to date in Houston facility. LA continues to be one of the leading states reporting positive cases with per capita positivity rates among the highest in the nation. That, along with economic UE incentives that recently expired, has impacted our personnel situation in Monroe.

### Construction Climate

ABI billings index up 1% in July. Overall construction spending declined for the fourth month in a row. It is possible that many non-residential jobs are in jeopardy following the completion of the ones that begun before the start of the pandemic. No major concerns at this moment, but we are actively monitoring the situation nationally and especially in the regions that could more directly affect us.

### Personnel/Equipment Constraints

Mechanical breakdowns were a hindrance in H1. New equipment will start arriving in August/September as concrete work is now done. Will still be some time before CNC equipment will be programmed and functionally operating. Personnel constraints continue with less efficiency due to Covid required spacing/distancing as well as general lack of availability. O/T continues with spend already at 98.7% of 2019 total. Employee burnout and fatigue are ongoing concerns. OT is necessary to drive top line until new equipment is operational.

## Other Significant Matters / Events

Bob West, AHC onboarded 7-15-20 and made first calls in OK, AR, and MO the first week in August.

**While OSHA issues were resolved months ago, injured employee has retained counsel and filed a third-party suit against the manufacturer of the punch press involved. At present it is still an issue between employee, WC, and now Nidec Minster Corp.**

**Megamet site visit conducted 7-29/30 by JM and AM. Good overall visit and diligence work continues to move forward.**

## Key Initiatives | Premier Capacity/CAPEX

**PREMIER** STEEL  
DOORS  
AND  
FRAMES

### Capex Approved Spend \$1.6M:

- Salvagnini Panel Bender (Doors) \$750,000
  - Amada EMK 3612 Turret Punch (Doors) \$399,000
  - Amada AE2510NT Turret Punch (Frames) \$232,900
  - Ermaksan CNC Press Brake (Doors) \$113,890
  - Miscellaneous Tooling, Prep, Etc. \$104,210
- \$1,600,000**

Machine	Delivery	Install	Training	Largely deployed
Ermaksan Press	8/4/2020	8/18/2020	9/7-9/9	10/30/2020

Amada Turret	8/18/2020	8/18/2020	9/1-9/4	10/30/2020
Salvagnini Bender	9/7-9/11	9/7-9/11	9/7-9/11	11/30/2020

# July 2020 Operating Review

- ➔ Administrative (call to order, confirm APR MOR minutes, etc.)
- ➔ Financial Review
- ➔ Delaney
- ➔ Premier
- ➔ **S&G**
- ➔ Committee reports
- ➔ Appendix

## Summary review

- July Bookings and Revenue performance were both consistent with an approximate 20% shortfall to Plan. Opportunity pipeline and slippage from in-month backlog, particularly in mechanical locks, outlooks upside for August.
- Unusually high increase in share of mechanical lock (i.e. 8077 padlock) orders driving volume and demand on labor

## Hits

- July Revenue Flat to Rfc
- July Backlog favorable \$2.3M to AOP and \$4.3M to PY
- July Bookings favorable \$440k to PY

## Misses

- July Revenue unfavorable (\$848k)/(20%) to AOP and unfavorable (\$834k)/(20%) to PY
- July Bookings unfavorable (\$686k)/(17%) to AOP and Rfc
- July Backlog unfavorable (\$1.0M)/(8%) to Rfc

## Market outlook to AOP and expectations

Region	Outlook	Risk Areas	Risk Core-Customers	Near-term Opportunities
APAC	81%	China, Japan, Philippines	SQ, Tristar/Dutech	Hanson for Hyosung in India (\$800k)
India	84%	-	Arya, AGS, NCR	Note: @90% of 2020 Bookings target offset by delay of shipments
EMEA	75%	Germany, Italy, Portugal, Spain	Caradonna, Format	Post Bank (\$210k), Privat Bank (\$1.2M), Russian ATM (\$900k)
LAG	79%	Argentina, Columbia, Mexico	American Locks, GSI, Mapa	B-Box (\$2.7M)
NA	86%	-	Lockmasters, Timemaster	Independent Hardware (\$300k), MBA (\$350k), Scripps Safe (\$300k)

## Focus and priorities

- Sales force effectiveness: Value Selling training 'Assessment' completed with moderately impressive results on the Sales Management and Reps, particularly in categories of 'Hunting' and 'Coachable'; Industry Market Manager (IMM) positions have been posted
- Operational objectives: On-time-delivery + Quality
- New Product Development: Resolved new keypad UL screen test (Passed) and driving toward regaining lost time for early Q4 commercial launch

## Risks

- First COVID-19 case at Nicholasville facility and one direct exposure – reinforcing PPE and diligence
- High mechanical lock product mix is taxing the reduced headcount in manufacturing labor due to attrition and temp labor released in April

## Summary

- Distribution improvements and industry trends continue to erode the importance of a distributed fulfillment position; footprint closure would **potentially reduce inventory requirements by \$440K - \$500K, freeing NWC for reinvestment**
- CH facilities **could be closed by Q3 2021, with 3 months notice, \$160K closing costs** (\$90K severance, \$20K lease termination, \$50K facility closure / winddown)
- Multiple strategic alternatives exist to managing the SA operation as is (listed in order of increasing disruption)
  - Move to lower-cost EU geo: Shift warehouse operations; reduce OPEX and optimize inventory
  - Leverage 3<sup>rd</sup> party fulfillment: Outsource warehouse operations, reduce OPEX (incur service exp.) and optimize inventory
  - Implement OEM consignment: Eliminate warehouse operations, eliminate OPEX, reduce inventory, increase customer partnership
  - Facility closure: consolidate into existing KY facility would result in a **net EBITDA improvement of \$250K (20% revenue loss scenario) or \$400K (10% revenue loss scenario)** (annual): net personnel expense reduction of \$104K personnel (\$360K payroll and benefits for 4 CH staff with back-fill customer service and sales) and \$145K other OPEX expenses; working capital improvement of , \$440K through inventory reduction / consolidation; **net neutral financially at 61% REV retention**

## Background

- **EMEA has experienced declining growth (10% YoY, Q1/Q2 2019 to 2020)** with flat relative contribution to S&G business, at the **lowest regional Gross Margin (~30%) with incremental OPEX** for management of fulfillment ops
- S&G growth in **other regions has not required local fulfillment capability** and could be mirrored in EMEA with minimal impacts to top-line, offset by reduced expenses
- CH operations consist of 4 individuals (warehouse, purchasing, customer service, administrative), \$670K inventory, **delivering \$3,685K sales (\$164K EBITDA, 4.4% EBITDA margin)**

## Next steps

- Confirm administration of footprint consolidation to be managed by Mike Brislin
- Enhance planning, with detail to be provided in August MOR (held in September), to include: timeline, primary workstreams and POCs, sales retention / socialization plan, customer support plan
- Assess fulfillment alternatives and impact to cost savings opportunity, impact to customer service, and customer sales retention

Trended Backlog - August

## Management Discussion

- July backlog of \$11.8M contains:
  - AGS blanket order of \$2.4M
  - ARYA blanket order of \$1.7M
  - Timemaster blanket order of \$1.2M
  - American Locks orders of \$0.5M
  - Shanghai Qiahne orders of \$0.4M
  - Cogar orders of \$0.4M
- 2019 Backlog of \$8.7M contained:
  - Timemaster blanket order of \$1.1M
  - ARYA of \$1.0M
  - Lockmasters of \$0.4M
  - NCR orders of \$0.3M

Backlog Runoff - August

## P&L impact

### SA facility closure scenario (10% sales impact)

#### Assumptions

Variable	Savings	Expense
<b>Net Sales</b>		
Revenue impact, % leakage / loss (of TTM sales)		10%
Inbound freight, % of prior expense	100%	70%
I/C Profit margin impact	30%	
<b>OPEX</b>		
<i>Personnel offsets / back-fill</i>		
CSR backfill - Payroll & Benefits		81,000
Retain Sales Rep (Payroll & Ben)		135,000
Bonus – Retained Sales rep		40,500
<i>Total personnel offsets / back-fill</i>		256,500
<i>Other OPEX</i>		
Legal/Admin/Audit		5,000
Office Supplies		2,000
<b>1-time expenses</b>		
Severance		91,000
Lease Buyout		21,000
Facility closure / wind-down		50,000
Inventory wind-down / liquidation	(\$471,684)	628,912

#### Analysis

	Baseline, TTM (July 2020)	Consolidation impact (net)	Future state
Net Sales	3,685,867	(\$368,587)	3,317,280
Gross margin, w/ IC Profit	\$1,083,781	\$129,156	\$1,212,937
Gross margin, %	29.4%		36.6%
OPEX	\$897,771	(\$245,781)	\$651,990
OPEX, % Sales	24.4%		19.7%
Total Other Income/Expense	\$27,749	(\$27,749)	\$0
One-time expenses	\$0	\$319,228	\$319,228
Net Income, w/ IC Profit	\$158,261	\$83,458	\$241,719
EBITDA, w/ IC Profit	\$163,637	\$83,458	\$247,096
EBITDA, w/ IC Profit %	4.4%		7.4%
<b>Adjusted EBITDA, w/ IC Profit</b>	<b>\$163,637</b>	<b>\$402,686</b>	<b>\$566,324</b>
<b>Adjusted EBITDA, w/ IC Profit, %</b>	<b>4.4%</b>		<b>17.1%</b>

### SA facility closure scenario

	Strategic alignment	Operations	Risk	Risk Mitigation
People	<ul style="list-style-type: none"><li>COVID environment requires assessment of excess O/H and operational efficiency</li><li>Investment in capabilities to support all regions rather than disproportionate focus on EMEA</li></ul>	<ul style="list-style-type: none"><li>Increase utilization and efficiency of KY staff / personnel</li><li>Impact to customer relationships and sales retention</li><li>Required language / regional support</li></ul>	<ul style="list-style-type: none"><li>Brand / reputational risk regarding divestment from EMEA</li><li>Poor optics with closure during COVID</li><li>Potential regulatory constraints / impacts for COVID separation</li></ul>	<ul style="list-style-type: none"><li>Develop internal and external socialization strategy / materials</li><li>Proactive customer engagement (when app.)</li><li>Incentivize collaboration from CH personnel during transition</li></ul>
Process	<ul style="list-style-type: none"><li>Improved production and distribution capabilities</li><li>Organizational flexibility to respond to evolving market environment</li><li>Investment in growth-oriented capabilities (i.e. technology, R&amp;D, sales)</li><li>Focus on industry best-practices rather than legacy systems and infrastructure</li></ul>	<ul style="list-style-type: none"><li>Reduced inventory complexity / manage with increased emphasis on production planning</li><li>Streamline fulfillment</li><li>Reduce capability for spot orders in region</li><li>Increased need for partner collaboration to facilitate customer needs</li></ul>	<ul style="list-style-type: none"><li>Potential sales / customer loss through decreased support and customer relationship impact</li><li>Transition challenges</li><li>Lost institutional know.</li><li>Logistics disruption, particularly in COVID env. (e.g. customs delays, shipping lane impacts, 3PL freight providers)</li></ul>	<ul style="list-style-type: none"><li>Create transition plan w/ potential EMEA customer prioritization / status</li><li>Integrate w/ customer production planning to enable support</li><li>Continue focus on operational performance and metrics for production, on-time delivery, quality, etc.</li></ul>
Tech	<ul style="list-style-type: none"><li>Utilize capabilities for enhanced production planning and order fulfillment</li><li>Leverage technology for global collaboration and consolidated operations with “reach”</li></ul>	<ul style="list-style-type: none"><li>Require improved transparency of production planning, demand forecasting, output, quality, on-time delivery, etc.</li></ul>	<ul style="list-style-type: none"><li>Poor data management / records (existing)</li><li>Customer integration challenges (e.g. collaborative production planning or fulfillment)</li></ul>	<ul style="list-style-type: none"><li>Validate system capabilities and existing customer data / records</li><li>Continue development of dashboards / other reporting capabilities</li></ul>

### Lease

- Next lease start date is 31 March, 2021 if resigned before the 30th March 2020
- It is possible to resign before if a new tenant is found (a person/company that is solvent and take the lease at the same condition). For example resignation send on the 15th December for end of January and find a replacement for 1st of February
- Minimum notice is 30 days (end of a month for the next month)

### Facility

- On the second floor of a five story multi-use retail, office, and warehouse property
- Property includes a shared distribution center with docks on the first floor

### Employees

- No social scheme in the law and no obligation of notice to the local authorities for companies under 10
- Minimum requirement would be in each person contract or if nothing is indicated the following would apply for the contract termination:
  - 1 month notice during the 1st year
  - 2 month notice starting from the 2nd year to the 9th year
  - 3 month notice starting from the 10th year
- Termination is always given for the end of a month. For example for Betul, if the letter is given on the 25th August, the contract will end on the 30th October
- If due to the illness and as per law the delay of termination is suspended for a certain period of time (depending of the seniority). The illness insurance has a special clause about the closing of a company and it is written that no compensation will be given after the close of the company
- Unclear status / impact for COVID-19 circumstances regarding employee termination and required severance

## Appendix | S&G Strategic Alternatives | Next Steps

- Establish SteerCo for management and collaboration of initiative
- Develop execution roadmap
- Prepare socialization materials (HR, internal communication, customer engagement, marketing)
- Develop reporting capability to ensure performance to plan

## Takeaways

- EMEA sales decline ~10% YoY (2019 to 2020); Q3 2020 partial period depicted, declining ~\$150K in Q1 and \$400K in Q2 (YoY)
- Q1/Q2 indicate depressed sales in EMEA when Q1 in other segments (NA, LAG) did not suffer as direct an exposure to COVID, potentially skewing results

## Regional sales contribution \$K

## Regional sales contribution % Revenue

- EMEA sales remain flat as % of total volume with declining sales
- EMEA 3<sup>rd</sup> region by REV trailing APAC and NA
- Variable sales contribution throughout trailing 18-month period ranging from 3.5% to 19%; at times almost trailing LAG
- Mature markets going forward may play a smaller role in core markets of financial sector (ATMs) and residential (vault / safe)

## Takeaways

- EMEA gross margin, prior to incremental infrastructure expenses (i.e. fulfillment facility), trails all other regions at ~30% (18M average)
- OPEX expenses continue to increase in EMEA (e.g. personnel, rent)
- Continued margin erosion expected with decreased demand for core products in mature markets, increased competition from low-cost alternatives, freight, and tariffs, etc.

## Regional sales margin *% of sales*

Takeaways

- OEMs comprise >70% EMEA volume; indicating leverage in transitioning to US base fulfillment due to:
  - Predictable volume / production mgmt. with advance collab.
  - Regular shipment frequency
  - High potential for customer retention
- Fewer than 90 customers (some overlap) with manageable socialization and engagement throughout facility closure

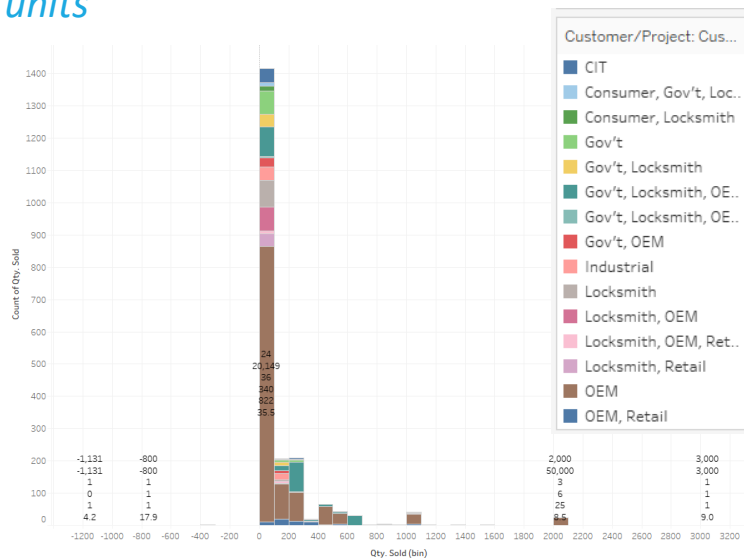

Customer concentration and makeup  
\$ Revenue, # (orders, unique SKUs), % GM of sales

## Order size distribution

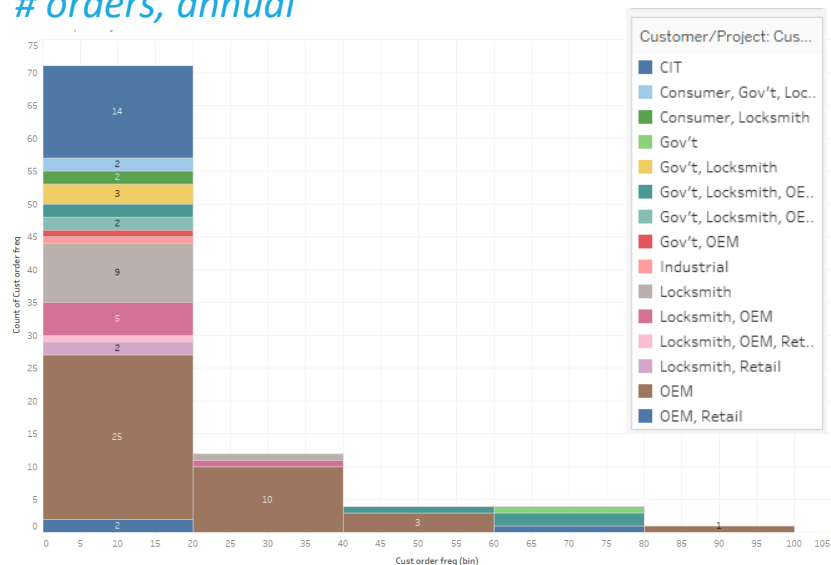

# units

- OEM order-volumes primarily include less than 100 units
- <50% REV comprised of orders with fewer than 500 units

## Order frequency distribution

# orders, annual

- Significant volume of customers order 1-2 times per month with consistent monthly or bi-weekly frequency and order (e.g. same parts and volumes)
- OEMs leveraging S&G fulfillment for weekly restocking

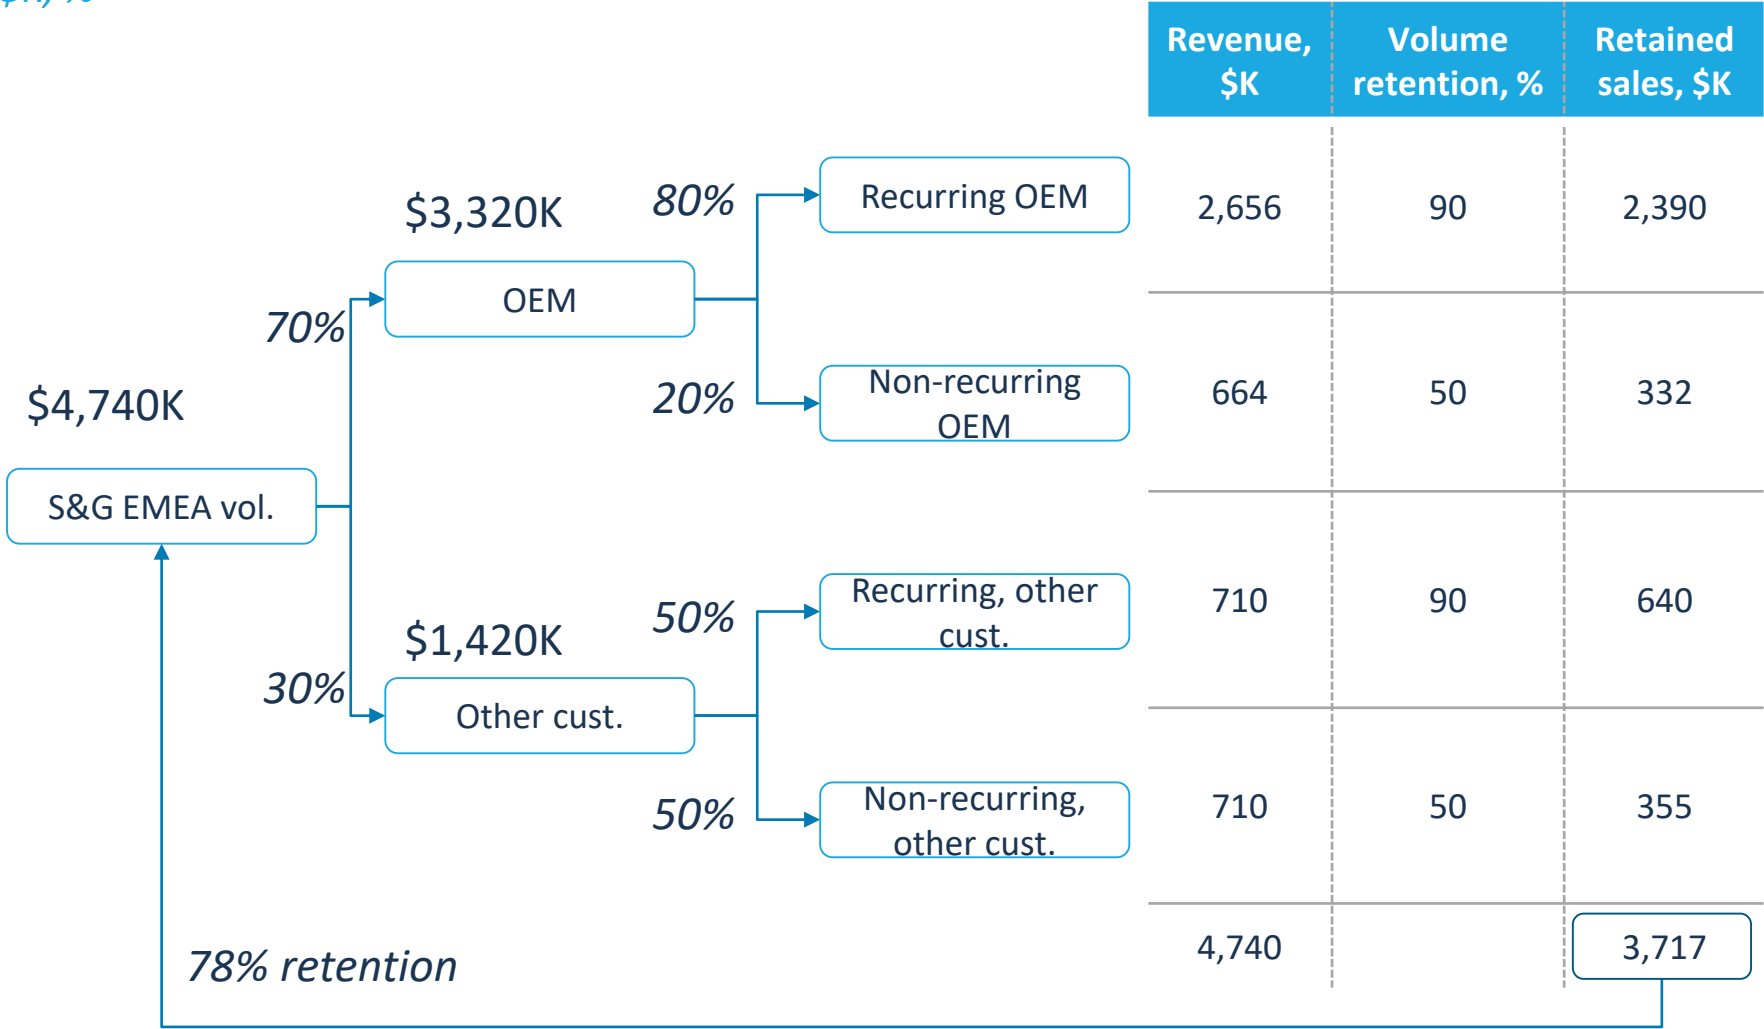

Appendix | S&G Strategic Alternatives | Quantitative Analysis

Sales volume impact

Revenue retention tree

\$K, %

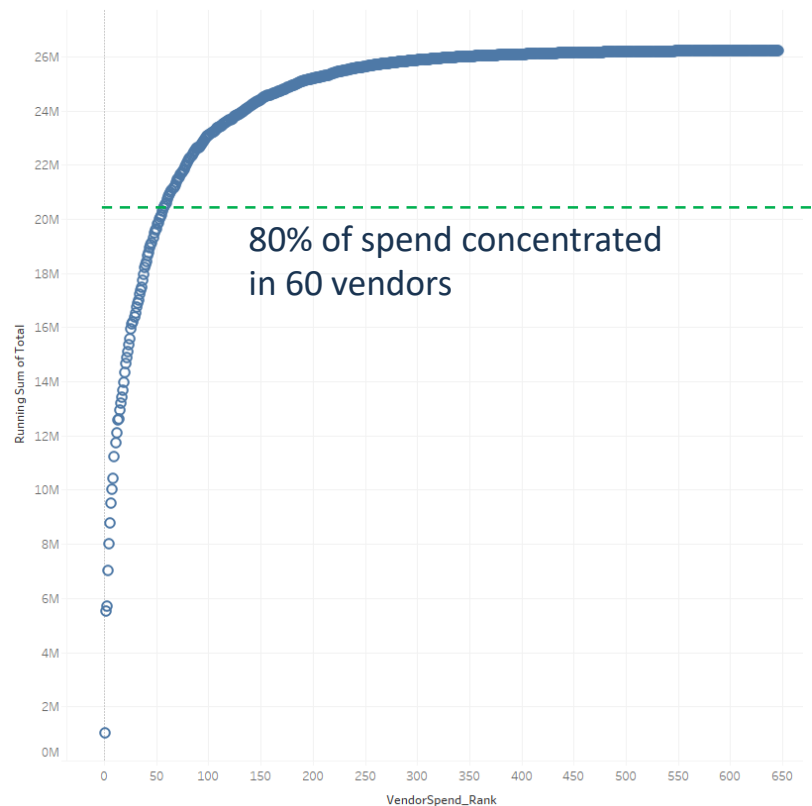

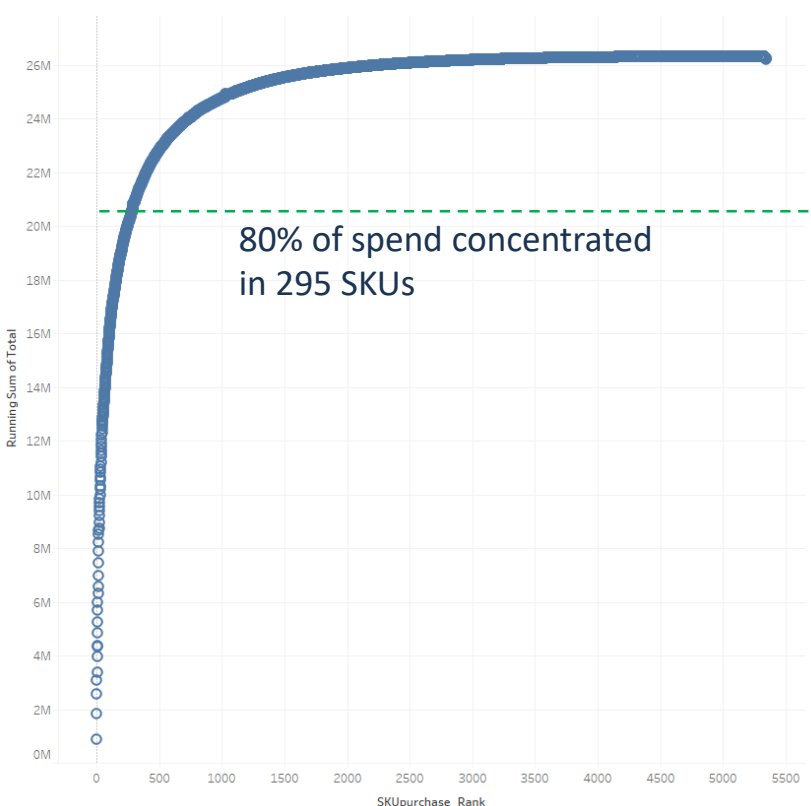

# Vendor and SKU concentration – S&G

**Vendor concentration**  
\$K, 2019-2020YTD (JUL)

**SKU concentration**  
\$K, 2019-2020YTD (JUL)

## Summary

- Investment in supply chain practices and personnel across the S&G portfolio to enable growth, improve margins, and achieve strategic transformation objective to focus on design, global sourcing and manufacturing, assembly, and distribution
- Existing practices reflect “purchasing” rather than “strategic procurement”:
  - limited applications of technology
  - limited data analysis and data driven decision-making
  - unstructured vendor engagement / RFPs,
  - price driven rather than TCO (total cost of ownership) methodology
  - limited strategic integration / cross-business coordination

## Procurement opportunity impact (preliminary estimate)

- ~\$890K annual purchasing cost savings estimated (\$840K – S&G, \$50K – Delaney, sales dependent), 2.3% of existing purchasing activity (\$38,400 consolidated); current estimate omits Premier savings potential based on data availability
- Bottom up opportunity sizing methodology implemented at the PO line item level (individual SKUs), leverage purchasing data for 2019 – 2Q2020
  - Normalize purchase price for individual POs using an average purchase price by SKU
  - Adjust individual PO purchase price (at SKU level) to lesser of average SKU price or the PO purchase price
  - Recalculate purchasing spend at PO level; determine variance from initial spend
- Additional data cleaning / modification needed to refine estimate (e.g. SKUs not classified into “types” or “classes” such as “Service”, “Labor”, “Travel”, etc. where significant variance from average price expected; segmenting the savings opportunity will enhance expectations

## Next steps

- Initiate personnel search (VP of supply chain) and implement cost offsets
- Enhance visibility of existing spend; requires procurement team input (information solicited, awaiting responses) for segmentation of purchasing details
- Prioritize cost savings opportunities and determine procurement implementation strategy (potential engagement of third parties)

# Appendix | Purchasing v Strategic Sourcing

Capabilities gaps exist today reflecting a purchasing function rather than a strategic sourcing operation, injecting talent and best practices can benefit S&G (cons)

Key Attributes	S&G current practices Traditional Purchasing Organization	Strategic Sourcing Organization
High aspirations	<ul style="list-style-type: none"><li>• <i>Periodic, incremental purchase price reductions, hoping to keep up with inflation</i></li></ul>	<ul style="list-style-type: none"><li>• Advantage vs. suppliers by understanding:<ul style="list-style-type: none"><li>– Total cost of ownership (TCO)</li><li>– Supplier economics and supply market options</li></ul></li><li>• Rigorous set of performance metrics to track progress</li></ul>
Fact-based negotiations	<ul style="list-style-type: none"><li>• <i>Disadvantaged vs. suppliers in negotiations who have better facts about the buy</i></li></ul>	<ul style="list-style-type: none"><li>• Total spend quantified and performance measurements are identified and tracked</li><li>• Suppliers and markets are better understood by [Client]'s than by competitors and even suppliers</li></ul>
Strategic focus	<ul style="list-style-type: none"><li>• <i>Process orders and minimize the cost of the purchasing function</i></li></ul>	<ul style="list-style-type: none"><li>• Emphasis on developing and executing sourcing strategies to reduce TCO</li><li>• Senior team views purchasing as core capability and provides visible support and commitment</li></ul>
Organization capability	<ul style="list-style-type: none"><li>• <i>Purchasing viewed as an administrative function; "last to know" about key decisions</i></li></ul>	<ul style="list-style-type: none"><li>• Cross-functional department that supports core processes like sales planning &amp; budgeting</li><li>• Function has culture of ongoing capability building and continuous improvement</li></ul>
Supplier management	<ul style="list-style-type: none"><li>• <i>Infrequent bidding with some suppliers, and undemanding "partnerships" with too many vendors</i></li></ul>	<ul style="list-style-type: none"><li>• Builds a world-class supplier network with a few demanding partnerships for goods and services that can truly contribute to competitive advantage</li><li>• Joint sales planning and product improvement</li></ul>
Current technology	<ul style="list-style-type: none"><li>• <i>Technology tools rarely applied; when so, focus on reducing transaction cost and tracking compliance</i></li></ul>	<ul style="list-style-type: none"><li>• Technology tools used to:<ul style="list-style-type: none"><li>– Harness technology for better decision making on TCO, supplier economics, and supply markets</li><li>– Better integrate suppliers</li></ul></li></ul>

Methodology and estimate  
\$K, 2019-2020YTD (JUL)

- Bottom up opportunity sizing methodology implemented at the PO line item level (individual SKUs)
- Leverage purchasing data for 2019 – 2Q2020: SAP and NetSuite (S&G) and Great Plains Dynamics (Delaney)
- Additional data cleaning / modification needed to refine estimate (e.g. SKUs not classified into “types” or “classes” such as “Service”, “Labor”, “Travel”, etc. where significant variance from average price expected; segmenting the savings opportunity will enhance expectations
- Calculation methodology
  - Normalize purchase price for individual POs using an average purchase price by SKU
  - Adjust individual PO purchase price (at SKU level) to lesser of average SKU price or the PO purchase price
  - Calculate new purchase price using adjusted price
  - Calculate variance from initial purchase price and new purchase price

**Opportunity size =**  
**[Initial PO purchase amount] -[MIN (initial purchase price, avg purchase price) \* QTY]**

Estimate likely to improve with increased granularity of detail and data cleanup  
~2.3% of spend reduction (current est.)

Price variance, normalized relative to avg  
SKU price, %, #

Business group	Purchasing spend, \$K (2019)	Opportunity size, \$K
S&G	\$18,760	\$840
Delaney	\$19,640	\$50
Premier	-	-
Total	\$38,400	~\$900

## Quality

Three pieces (2 – packaging issue, 1 – weld).

## OT

OT in excess continues to be required due to strong demand and secondary factors like distancing and process alterations. CAPEX remedies are in process but have not and will not mitigate constraints in the near term.

## Cost & Rate

Cost per part has shifted because of increased overtime utilization combined with equipment failures and temp usage. Realignment of plant personnel for Covid-19 and postponed CAPEX had a negative effect on productivity for July

## Safety

An employee cut his arm on a piece of flat steel requiring six stitches (behavioral – addressed)

- July revenue moderately off with capacity and capabilities essentially at maximum including the use of OT because of covid mitigation efforts and machine limitations.
- YTD, Monroe accounts for majority of growth, but Houston also up (Monroe 9.6%, Houston 4.5%). Warehouse growth has been and is being limited by low support inventory because of production challenges with machinery exacerbated by covid mitigation measures (ATL down 4.4%).
- An inability to shift capacity to supply undersupplied warehouses is a contributing factor to lower growth rates. Pandemic mitigation measures continue to substantially impact the ability to fill both factory and warehouse orders.
- Intercompany HM purchases up \$ 24,184 YTD.**

**JULY 2020 = \$ 716,893**

**JULY 2019 = \$ 692,709**

July Monthly Revenue by Location & PY; YTD Total

Gross sales down slightly from PY (2%) and were off 9% to AOP. Cash sales were down as expected due to distancing and continued operating challenges including community health issues decreased production capabilities for other mix categories.

OEM beat PY and AOP, Distributor beat PY but missed AOP, and other categories were down in both regards.

Distributor sales were slightly off to AOP, but **intercompany HM demand increased and is now up \$24,184 YTD.**

## June Segmentation and Mix

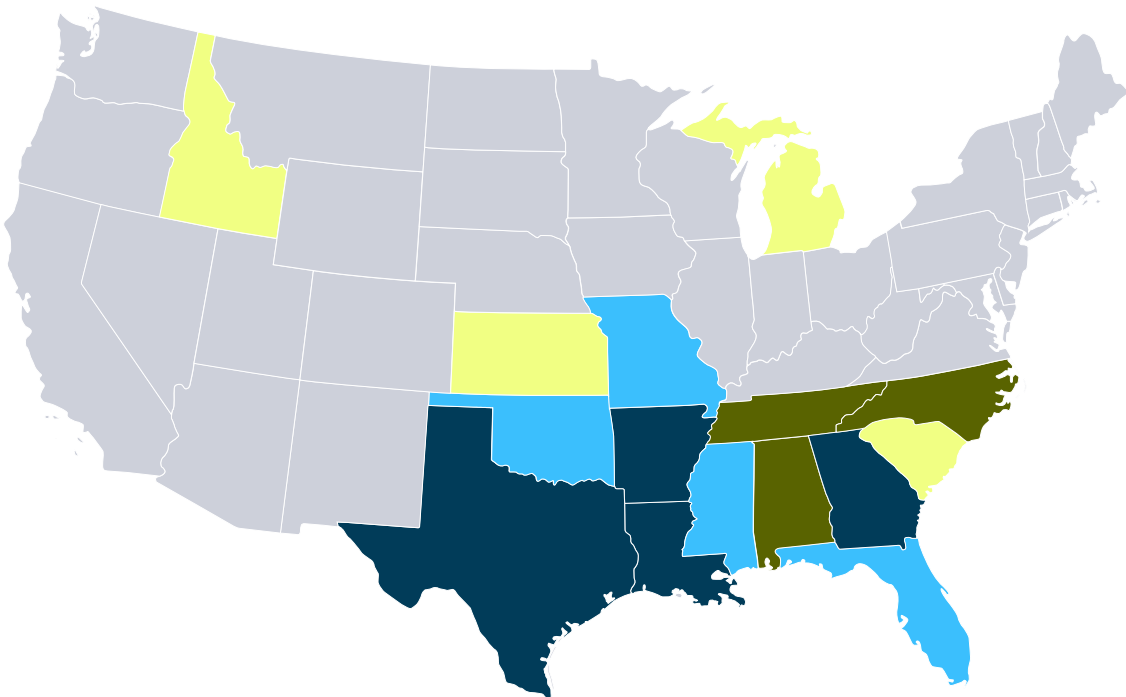

Element	2020	2019	PY Diff	% Change	AOP	AOP Diff	Over/Under	MIX
Gross	1,607,638	1,636,809	-29,171	-1.78%	1,728,028	-120,390	-6.97%	1,607,638
Cash	16,649	24,809	-8,160	-32.89%	21,013	-4,364	-20.77%	1.04%
OEM	849,623	622,412	227,211	36.50%	736,514	113,109	15.36%	52.85%
Dist	734,941	950,788	-215,847	-22.70%	944,391	-209,450	-22.18%	45.72%
Pre-Assem	6,425	38,804	-32,379	-83.44%	26,110	-19,685	-75.39%	0.40%

The south and southeast have typically been our primary markets and have historically accounted for 90-92% of Premier’s hollow metal shipments. The highlighted states reflect where products were shipped during the month of July.

July 2020 = 94.8%

- \$500-5000
