Commercial Update as of mid-August Operations Impact & Capacity Planning Financial Outlook

HUFCOR Commercial Update: Hufcor Global Backlog

Overall, the 07/31/20 backlog decreased by \$965k (-\$2.8M – Domestic, +\$1.8M – International)

■ Domestic ■ International

Management Discussion:

- This decrease is driven by a decrease in the domestic backlog of \$2.9M (Janesville - \$1.1M, Minnesota - \$562K, Southeast - \$747K, Texas -\$747K). The international backlog, however, increased by \$1.5M (Australia \$1.4M)
- Hufcor Sales Offices achieved 74% of securement goal. Permits and delays continue to slow the process of awarding bid contracts
- Independent Distributors quoting activity was down 10% in July compared to 2019, however securements for July were above goal by 4.5%
- Major Projects activity remained consistent in July, better than most of Q2
- International Backlog:
 - Asia continues to be weak, particularly in Hong Kong
 - Europe achieved original AOP sales numbers for the month
 - Australia benefitting from the government's push for school projects

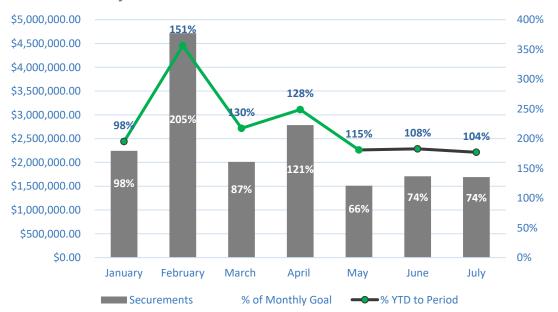

HUFCOR Commercial Update: Hufcor Domestic Offices

■ LOST ■ OPEN ■ WON

Domestic Hufcor MTD & YTD Securements vs Goal

Management Discussion:

Wind-down of Southern California field office to be announced Sept 1; transitioning a portion of the backlog to the new distributor for the region.

- Opportunities represent jobs in Hufcor Sales Offices within 3 stages (Qualified/Develop/Negotiate)
- YTD Open Opportunities totaling \$79.7M remains a weekly focus for field office follow up
- Many projects still experiencing delays as owners are not releasing projects to bid, but also not cancelling. Delay in permits continues
- July vs June was flat in opportunities, but offices are still receiving Architectural requests for future project budgets

Securement Activity:

- YOY July experienced an increase in securements by +12% (\$1.7M vs \$1.5M), and an increase in project count of +8 (88 vs 80).
- YTD through end of June, Hufcor Sales Offices are at 104% of goal.
- Continued areas of focus:
 - Q1-Q2 blitz on all open quotes weekly calls min 8 hrs/wk (minimal emails)
 - Protective Partitions New sales and service sales opportunity
 - Leverage lead times with all projects, as we remain at or below 10 weeks
 - Unispan growth given no competitive threat
 - Pricing strategies and freight cost adjustments in targeted regions
 - Increased focus from A&D sales toward competitive BOD changes
 - Increased advertisements for new product, PP, and service resulting in increase leads – will continue to focus dollars and effort here.

Management Discussion:

Quote Activity Flat:

- Number of guotes declined (273 for July 2020 vs. 299 for July 2019)
- Dollar volume of quotes for July 2020 decreased (\$6.2M for July 2020 vs. \$6.5M for July 2019).
- Numerous states re-implemented COVID restrictions; yet despite this challenge, overall quoting levels remained flat.

Securement Activity:

- Finished July at 105% of securement goal (\$2.5M secured vs \$2.4M goal).
- YTD Securement Goal thru July at 95% of goal (\$15.8M secured vs \$16.7M goal).

Actions:

- New RSM's engaged with distributors to get orders.
- All RSM's evaluating under performing markets and distributors in those markets. What is needed to increase market share? Training, pricing or bid strategy adjustment? Do we have the right partner?
- New distributor in Pittsburgh and West VA market, potential net gain of \$500K+ in sales.
- New distributor in LA market, potential gain of \$400K+ in sales.
- Aggressively pursuing quote log follow up with a heavy focus on projects for secure and release in 2020.

- Material Net bookings (Janesville) lag 2019 levels due to lower GU/GA bookings in 2020
- Continued optimism that hospitality and convention center projects in pipeline to continue, expecting requoting activity in August and September
- No major projects permanently cancelled, but some have pushed out

Global Construction Output

SE Asia - Combined

Management Discussion:

- International securements grew slightly from June, driven by Europe and Hong Kong.
- Europe Severe slow down in quoting activity in exports/distributors
 - France: July was solid quote activity and anticipate increased securements in August.
 - Germany:
 Agents secured 116% of goal (top month in 2020)
 Distributors: 76% Goal, continues COVID declines
 - Developed Service Sales Plan recruiting new tech candidates. Still projected to start Q3.
- Australia Strong opportunity pipeline and government COVID recovery investments in education markets.
- Malaysia/SE Asia opportunities extremely limited with small projects. <u>Quote activity increased 3X</u>, but project size totaled only 50% of typical months.
- SE Asia Launch Google AdWords campaigns
- China –COVID restrictions hampering sales severely.
 Hong Kong Solid securement month, but political unrest continues to slow quote activity.
- Marketing Coordinator recruited for China specific efforts. To hire in August.

Janesville Capacity Planning

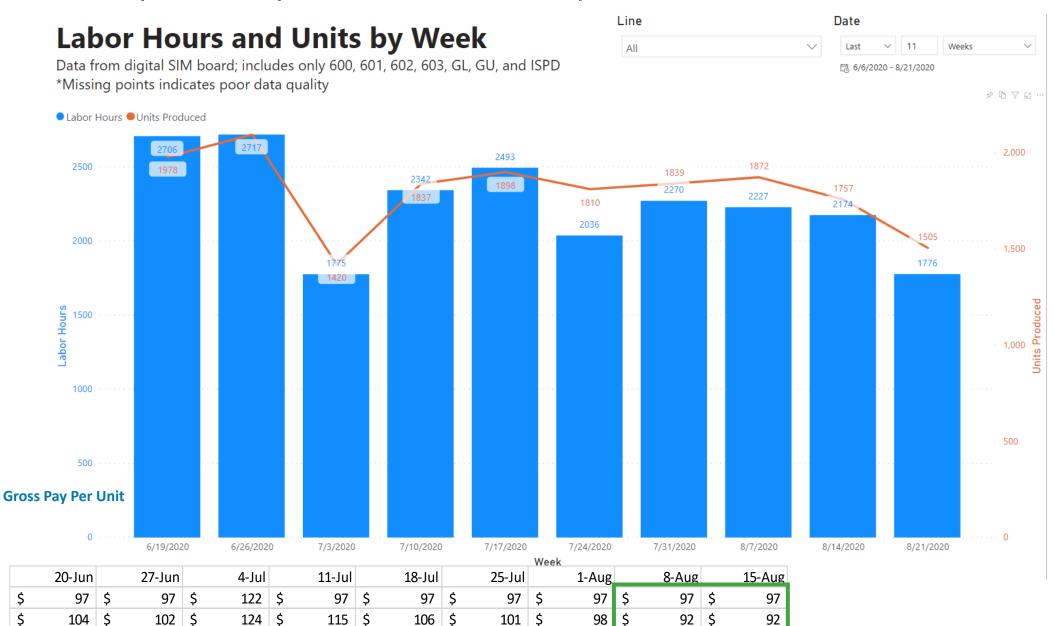

- Hybrid Demand-Headcount model being used to plan/manage staffing and cost control; will help to inform timing of hard (permanent) and soft (temporary) layoff volumes
- Based on projected demand, **weekly capacity thresholds** (for releasing new orders) have been set to 70% (or less) starting in October; 50% in December; and 65% for Q1 2021
- After getting fully caught up from the June shutdown, Production has been able to manage labor hours worked effectively reducing Gross Pay per Unit to ~\$92/unit in August vs. ~\$107/unit in June/July
- Temporary Reductions Ongoing [Per week cost savings: Variable \$1000/week/head]
 - Count: Variable
 - Will execute temporary layoffs as required through to 2021
- Permanent Reductions Round #1 effective week of 10/12 [Per week cost savings: ~\$48K]
 - Permanent: 48; New Union Count: 145
 - Union response and bumping process will present managerial challenges

Management Discussion:

- Solid panel workload through September and importance of Resorts World job execution suggests a hard layoff in October, not sooner
- Average gross wages paid per week has been reduced to \$160K in August vs. \$190K in July
- In September (and going forward), temporary/voluntary layoffs and K-time will be used to manage labor hours worked
- Latest thinking is there will be 2 hard cuts in total –
 Oct 12th and a final reduction in 2021
- Much of JVL is no longer working any overtime but remaining planned overtime (i.e. 9-hour work schedule) will cease w/b 8/31
 - Potential for significant overtime to be logged after hard layoff starting in October

Management Discussion:

- As stated in our previous update, management was waiting until mid-August to assess the commercial demand for the remainder of the year
- Commercial team was asked to review all securements slated for Q3 and Q4, to confirm that they were still on schedule to produce and ship, with a particular focus on the large jobs over \$80k
 - Of the 25 major jobs reviewed; 11 were confirmed as-is, 8 moved to a later month within 2020 and 6 were moved to 2021
 - These jobs represented \$4.4 million of product revenue; \$1.2 million confirmed as-is, \$1.9 million moved to a later month within 2020 and \$1.4 million moved to 2021
- Based on this feedback, management has revised the commercial forecast for Q3 and Q4
- In addition, management has re-forecasted performance for the next 4 quarters assuming headcount reductions that will take place
- Management will continue to assess the commercial forecast and execute changes to headcount as required

Management Discussion:

Accounts Receivable

- Increase in AR driven by sales in July
- Retainage listed at \$5.7mm
 - \$3.9mm of Domestic Retainage
 - \$1.6mm of International Retainage

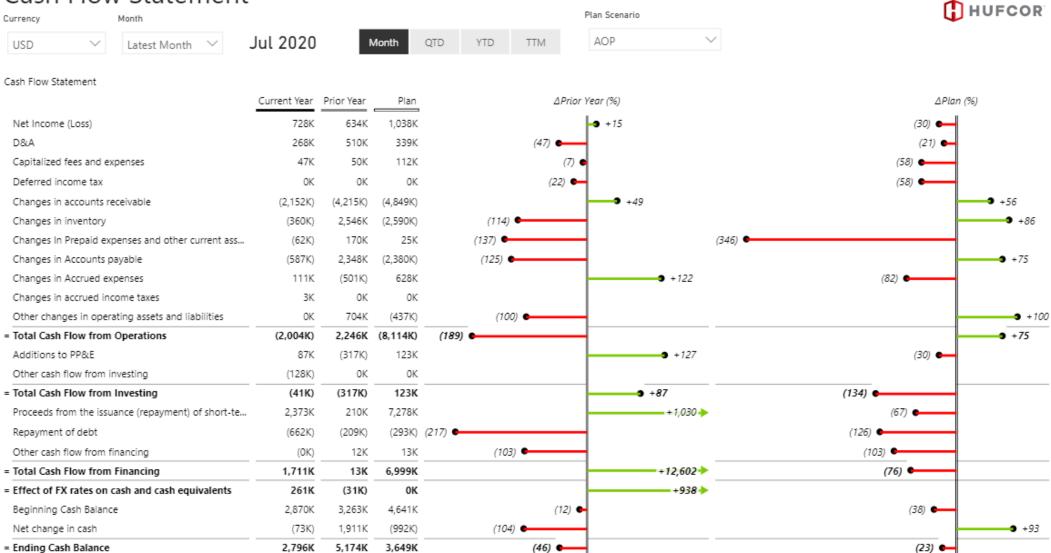

Accounts Payable

- Decreased as a result of catching up on vendor payments
- A/P > 90 consists of OpenGate management fees prior to May; remaining >90 driven by cash management in international locations using "pay when paid" model and legal fees.
